PROFESSIONAL SUMMARY

Detail-oriented MERN Stack Developer with hands-on experience building responsive, scalable user interfaces and integrating robust backend services. Proficient in React.js, JavaScript (ES6+), Node.js, and modern database architectures (MongoDB, MySQL). Adapt at optimizing code quality, streamlining version control, and accelerating development workflows through modern automation tools.

Technical Skills

- **Front-End:** JavaScript (ES6+), React.js, HTML5, CSS3, Tailwind CSS, Bootstrap
- **Back-End & Databases:** Node.js, Express.js, MongoDB, Firebase (Auth/Firestore), MySQL
- **Tools & Platforms:** Git, GitHub, VS Code, Vercel, AI Tools Automation
- **Methodologies:** REST APIs, Responsive Web Design, Component-Driven Development

PROFESSIONAL EXPERIENCE

MERN Stack Developer Intern | RecruWeb Resources Pvt Ltd. | March 2025 – June 2025

- Engineered responsive UI components using [React.js](#) for job listings and candidate management, improving navigation and UX.
- Integrated [Firebase Authentication](#) and [Firestore](#) for secure authentication and real-time data handling.
- Resolved critical frontend bugs, improving code stability and cross-browser performance.
- Managed version control with [Git/GitHub](#) and deployment pipelines on [Vercel](#).

Web Developer | Self-Initiated Projects & Freelance

- Designed and deployed cross-browser compatible web applications adhering strictly to clean HTML5/CSS3 and semantic JavaScript (ES6+) standards
- Constructed modular, reusable React.js components featuring client-side routing, optimized hooks, and robust local state management.
- Utilized AI-assisted development automation frameworks to rapidly troubleshoot architecture, cutting development cycle overhead.

PROJECTS

RecruWeb – Recruitment Platform | [Live Demo](#)

- Developed a full-stack recruitment application featuring dynamic job indexing, secure user authentication profiles, and an interactive, real-time application status pipeline using React.js and Firebase architecture.

Personal Portfolio Website | [Live Demo](#)

- Designed and hosted a fully responsive digital portfolio showcasing technical projects, clean UI practices, and integrated contact endpoints using React.js and GitHub Pages.

Technical Project Portfolio

- Built a production-ready suite of interactive applications, including a Voice Assistant using the Web Speech API, an asynchronous Weather Dashboard leveraging REST API data-fetching, an Employee Management System, and performance-optimized browser utilities.

EDUCATION & TRAINING

- **Bachelor of Science in Computer Science | CCSU | (2025)** - Mewar Institute of Management, Ghaziabad
- **Full Stack Development Certification | DUCAT Institute**, Noida Sector 63
